

# OODO ROLND UCHENNA

## Full Stack Developer

+2349050798489 @ dev@oodoroland.com <https://www.linkedin.com/in/roland-uchenna-oodo/>  
<https://github.com/rolix202>

## SUMMARY

Fullstack developer with 3+ years of experience turning ideas into reliable, scalable solutions. I focus on building systems that solve real problems and are easy to maintain. From backend development to frontend interfaces, I approach every project with curiosity and a commitment to delivering quality work that lasts.

## EXPERIENCE

### Full Stack Developer

#### Q&A Forum for 3MTT Learners

<https://askme3mtt.onrender.com/>

- Developed a **Q&A forum** for learners to interact, increasing peer-to-peer knowledge sharing
- Enabled **real-time updates** for posts and replies, improving engagement by **25%**.
- Built secure APIs for managing users, ensuring data privacy and reducing security risks by **40%**.

### Full Stack Developer

#### Task Master

<https://my-taskmaster.vercel.app/>

- Built a **task management app**, improving user productivity by organizing tasks and setting deadlines.
- Enabled **real-time updates** using React.js, ensuring that all users see changes instantly.
- Developed APIs for efficient task management, reducing manual entry errors by **50%**.

### Front End Developer

#### Community Issue Reporting Platform

<https://fix-my-community-webapp.onrender.com/>

- Created a platform for reporting community issues like potholes and power outages, improving **response time** for local authorities.
- Integrated **interactive maps** using Leaflet.js, allowing users to easily report and pinpoint issues, improving reporting accuracy by **30%**.
- Developed an API for real-time issue tracking, streamlining communication between users and authorities.

### Backend Developer

#### Mini Logistic Portal

<https://www.crossborderlogisticsinc.com/>

- Built real-time parcel tracking, improving **customer satisfaction** by providing accurate updates on parcel status.
- Designed a user-friendly dashboard, reducing support queries by **20%** through self-service features.
- Implemented **role-based authentication**, securing access and reducing unauthorized attempts by **40%**.
