

ROLAND UCHENNA OODO

Full-Stack Developer

dev@oodoroland.com | <https://linkedin.com/in/roland-uchenna-odo>

<https://oodoroland.com> | <https://github.com/rolix202>

PROFESSIONAL SUMMARY

I am a Full-Stack Developer experienced in building production-ready web and mobile applications. I work across the stack with React, Next.js, Node.js, TypeScript, and scalable APIs to deliver scalable, well-structured solutions.

I have improved and rebuilt systems for performance and maintainability, designed reliable REST APIs, and collaborated closely with designers and product teams to ship features that improve real user experience. I work comfortably in remote environments and value clean code, clear communication, and delivering on commitments.

CORE COMPETENCIES

- Backend: Node.js, Express.js, MySQL, REST APIs, JWT Auth
- Frontend: React.js, Next.js, TypeScript, TailwindCSS
- Tools: Git, Postman, Cloudinary, Vercel, Render, DigitalOcean
- Extras: API integrations, State management, Teamwork, Agile
- Learning: Cloud Functions, Testing (Jest), Performance tuning

PROFESSIONAL EXPERIENCE

Full-Stack Developer

LoubbyAI | Remote

Dec 2024 – Dec 2025

- Helped build an AI-powered resume builder using Next.js, Node.js, and MongoDB, improving how fast and accurately resumes are generated.
- Worked on a job portal with advanced search and filtering features.
- Part of the team that built an AI agent marketplace, handling auth, routes, and data connections.
- Joined code reviews and sprints - learned how to build together, not just alone.

Full Stack Developer
The Factory Place | Contract
Sep 2024 - Jul 2025

- Rebuilt the company's main web app using React and Node.js - cleaner, faster, and easier to manage.
- Mentored an intern while handling production fixes and deployments.
- Tweaked backend endpoints and reduced API response time by around 20%.

Full Stack Developer
TRIIBE | Contract
Jun 2023 - Aug 2024

- Migrated their old static site into a dynamic React + Node.js stack.
- Worked with the design and marketing teams to ship new features.
- Deployed the site on a VPS, tuned SEO and load speed.

PROJECTS

AskMe3MTT

A Q&A platform for the 3MTT community - share knowledge and learn together.

Stack: MongoDB, Express, React, Node.js

- Built the APIs, handled authentication (JWT), and managed frontend data flow.

Issue Tracker Web App

A community tool for reporting local issues like potholes and outages.

Stack: React, Node.js, Express, MongoDB, Cloudinary, LeafletJS, TailwindCSS

- Added Cloudinary for image uploads, integrated maps with Leaflet, deployed on Render.

Mini Logistics Portal

Backend system for tracking shipments and managing orders.

Stack: Node.js, Express, MongoDB, JWT, EJS, Bootstrap

- Built secure JWT auth, optimized database queries, and set up admin dashboards.

EDUCATION

Bachelor of Science in Computer Science
University of Nigeria | Nsukka
Jul 2023

Nigerian Certificate in Education - Computer/Mathematics

Federal College of Education | Eha-Amufu, Nigeria

Jun 2019

CERTIFICATIONS

- IBM: Introduction to Software Engineering
- IBM: Introduction to Cloud Computing
- 3MTT: Software Development
- IBM Full-Stack Developer (in progress)

WRITING & COMMUNITY

- I run zeenomtech.com, where I write tutorials and share what I learn along the way.
- Also post occasionally on Medium about web development and personal growth at <https://medium.com/@rocodeify>
