PROFESSIONAL SUMMARY

I'm a Full Stack Developer with over 2 years' experience turning ideas into reliable, scalable web applications. Most of my work revolves around JavaScript, Node.js, React, and MongoDB, but I enjoy picking up whatever tools help solve the problem. I've rebuilt slow, messy systems into fast, maintainable codebases, worked closely with designers and product teams, and shipped features that actually make a difference for users. Clean code, clear communication, and delivering what I promise are my non-negotiables.

CORE COMPETENCIES

Technical Skills:

JavaScript   TypeScript   React.js   Next.js   Node.js   Express.js   MongoDB   Git/GitHub

Professional Skills:

Communication   Team Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer   Jan 2025 -

DivVerse Labs | Remote

- Built an AI-powered resume builder using Next.js, Node.js, MongoDB, and OpenAI API, improving resume generation speed and accuracy.
- Developed a job portal platform with advanced search and filtering features, increasing user engagement.
- Refactored large legacy codebases into modular, maintainable components, reducing average file size from 1,000+ to <250 lines for easier scalability and debugging.

Full Stack Developer   Jan 2024 - Jul 2025

The Factory Place | Hybrid

- Led the complete rebuild of the company's main web application using React.js, Node.js, Express, and MongoDB, improving load time and overall user experience.
- Mentored an intern, guiding them through code reviews, debugging, and modern development workflows.
- Partnered with the business team to align technical features with customer needs and company objectives.

Full Stack Developer

Nov 2024 -

TRIIBE | Remote

- Migrated the company website from static HTML/CSS to a dynamic React + Node.js stack, enabling faster updates and improved interactivity.
- Collaborated with design and marketing teams to deliver features that enhanced user retention.

Frontend Developer

Jul 2024 - Feb 2025

DaHel Consultants and Techies | Remote

- Developed responsive, user-friendly interfaces using React.js, JavaScript, HTML5, and CSS3.
- Optimized pages for performance and accessibility, improving load times and usability.
- Contributed to frontend coding standards and best practices through regular code reviews.

EDUCATION

Bachelor of Science in Computer Science

Jul 2023

University of Nigeria | Nsukka

Nigerian Certificate in Education - Computer/Mathematics

Jun 2019

Federal College of Education | Eha-Amufu, Nigeria

CERTIFICATIONS

- Introduction to Software Engineering – Coursera
- Introduction to Cloud Computing – IBM / Coursera
- Software Development – 3MTT
- Web and App Development – Utiva
- IBM Full Stack Software Developer (In Progress)
